

# MY ANGER

## Society

*"I hate you people, you've robbed me of so much fun. And no, don't fucking say 'It's your fault,' because it isn't. You guys had my number."*

*phone, I asked and everything, but no. No no no, don't let this*

*"Weird brat Eric should show up here, oh fuck, no."*

How I hate society, the stupid bio-garbage. Society is hypocritical, disgusting, stupid, and degenerate. It's unfair. Every day saddens me when I wake up and realize I'll have to interact with people again.

Every day I see people, every day I experience stress, every day I sit alone, alone with my thoughts. Every day I live in vain, gaining nothing but fear and hatred. And YOU are the reason for this. Only recently have I realized that people are worthless. Lives have no meaning, and you, people, with your disgusting behavior towards me, have only confirmed this.

You've driven me crazy. I've been suffering in this fucking school for 9 years.

Why does anyone even get to decide anything about me and my destiny?

Why do some assholes have the right to control me?

Who gave them this right?

Why didn't anyone ask my opinion? Why?

## Christianity

*"I cannot agree with the form of Christianity that is preached  
most modern preachers."*

© Dylann Roof

I love Christianity. Thanks to the Crusaders, Europe survived the first attempts at occupation by rabid desert savages. Christianity proved itself to be an excellent option for a unified faith in Europe; Christianity united Europeans.

Christianity is in decline now, it's weakened, and reforms are needed for its revival. I don't like what's happening now. As Ruf wrote, the modern narrative simply says, "Leave it to God"—all talk, no action. We see the occupiers performing namaz right in churches and temples; we see these animals climbing Orthodox churches during Eid al-Fitr. We see Muslims slaughtering priests right in churches and shooting parishioners. What are Christians doing? Nothing. Christians are supposed to kill. You say, "But you can't." Fine, you can't. Then just wait for death.

You only have two options: either you tolerate it under the pretext of "Murder is a sin" and die without having done anything for your race, faith and land, or you follow in the footsteps of Brenton Tarrant and kill the occupiers, that's all.

## Methods

There's no way to fight the occupiers except through mass murder. It's impossible to reason with terrorists. You can never reason with a chimpanzee—it'll tear you apart, just as you can never reason with an Arab suicide bomber or a black man with a knife. It's impossible to reason with a dumb, unevolved ape who believes in the ancient delusions of the sick, pedophile terrorist Muhammad. Take off your rose-colored glasses; we can only win through violence.

## Higher and lower races

A person who created civilization, infrastructure, medicine, architecture, books, the Internet, computers and everything we use today cannot live in the same room with a monkey, not only a physical monkey, but also a mental monkey, who knows nothing except how to rob, rape and kill.

We are different, humanity in the general sense does not exist.

Inferior races are definitely the enemy of whites and Europe as a whole. You can take the ape out of Africa, but you can't take Africa out of the ape.

We have different intelligence, body structure, different skulls, different development, different crime rates.

## Jews

*"His blood be on us and on our children!"*

Matthew 27:25

*"We are facing the most dangerous enemy in the world."*

*"It's worth taking a closer look at our enemies, and your gaze falls on one Jew after another.*

*to others."*

© Joseph Goebbels

LGBT, leftists, antifa, the elite, the media, modern liberals, Marxists, the opposition, the secret services, and other anti-white rabble—all of this is controlled by Jews. Jews control your every move, every online search, every instant message, every word, every movement.

What can I say about their contribution to the extermination of the white race?

Without them, no Arabs, blacks, Latinos, or others would have been able to exist in Europe. Jews tolerate and support Islamic terrorism, Crocus, 9/11, the 2015 Paris attacks, and so on. But as soon as a European starts looking for information about white terrorism, the Jews immediately target them.

I'm not saying the blame lies solely with the Jews—nothing of the sort. Immigrants are just as much our enemies. The only victims are Europeans, some Asians, and the non-Islamized peoples of the Middle East.

## Racial mixing

It makes me sick to see a white woman and a black man online, it's disgusting. I'm even more disgusted and angry when I see comments like, "Why is everyone so surprised? Racism isn't normal in the 21st century." Fuck, you fucking idiot, shut your stupid face and go cut yourself open in the bathroom, you stupid whore.

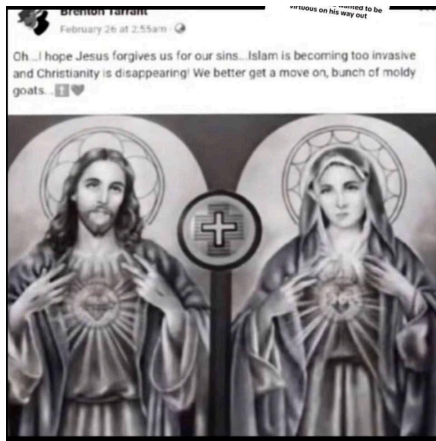

I'm not against ethnic mixing, although that's also questionable. European men and women? Fine, but nothing else.

What should we do with inkwells? Kill them, in the most brutal ways.

## Paganism

In general, I have no complaints about pagans, almost none. I don't like how you underestimate Christians. It infuriates me that you call Tarrant, a Christian, a pagan. Stop sowing discord; whites are already an absolute minority; we can't split.

For the stubborn:

From Tarrant's Facebook account

"Oh...I hope Jesus forgives us for our sins...Islam is getting too

aggressive, and Christianity is disappearing. We better hurry, you bunch of moldy  
rams...†❤️»

Remington MVP.223 rifle, right side, inscription:

"Deus Vult" translated as "This is what God Himself wants" was the cry of the Christian crusaders during the Crusades.

Shotgun 870 magnum, right side: "Jeremiah 46:16" - from the Bible "They will stumble again and again, they will fall one on another and say, 'Get up, let us return to our people, to our homeland, away from the sword of the oppressor.'"

The same shotgun, left side: "Psalm 144:1" - from the Bible "A song of praise of David. I will extol You, my God and King, I will praise Your name forever."

From Tarrant's "Great Replacement," "to the Christians," second paragraph, first sentence:

"We are disgraced, sons and brothers, living in the days of troubles!" It is precisely "We are disgraced" and not "Christians are disgraced."

## Islam

Speaking about Islam, I would like to immediately clarify my position: there is no division between "Muslims" and "Islamists", which is constantly being tried

Use the left and Muslims themselves as arguments. From this perspective, who was the Prophet Muhammad? A Muslim? No, by this definition, he was the most radical Islamist in history, the founder of Islamic terrorism, so your idea of "Muslims" and "Islamists" collapses with one question.

Islam is a plague that must be eradicated completely. Islam has brought nothing good to the world. You say "Islamic scholars"? Yes, there were, but all these "Islamic" scholars studied from European books, and by origin, every single one of them was Persian, who did not convert to Islam and were often the descendants of Islamophobes. So, what did they create? Nothing. All their "achievements" in mathematics, astronomy, and the rest are simply a continuation of what the Romans and Persians left in the Middle East before the arrival of the Muslims. Arabic numerals? No, the Arabs adopted them from the Hindus.

When discussing the origins of Islam, Muhammad simply distorted Arab paganism, and that's all. Islam's main relic—the black stone in the Kaaba—was an Arab pagan idol, and the Kaaba/Mecca itself was a pagan temple. Muslims even perform prayer in the same positions as Arab pagans before Islam. Allah is the pagan Arab god of the moon. Even the minarets of mosques were taken from pagans.

Muslims are a useless, dangerous, and mindless rabble. We must liberate the entire Middle East and North Africa; these lands have always been white.

## MOTIVATION

**HATRED**  
**HATRED**  
**HATRED**

I HATE YOU

MUSLIMS FOR TERRORISM  
BLACKS FOR CRIMES  
JEWS FOR ORGANIZING TERRORISM AND WHITE CRIMES FOR  
INACTION

As long as you sit and do nothing, your life is meaningless. You are worthless unless you are willing to kill and die for your ideas. DIE.

You're just a bunch of hypocritical shit. No? So prove it, YES, YOU, go kill someone, do something good for the planet.

Whites have no right to anything in the current situation; you are not worthy of Europe, or the Earth, or life.

Just keep this in mind: even the Arab Sonboli, the Niger-Jew Henderson, the Turk Küçükötüm, the Indonesian (name?), the Mexican García, and the Indian (name?) have done more for the White Race and the future of white children than you. Shame.

Heroes, unlike you.

So, if after reading this you want to change something in your life, then:

## INSTRUCTIONS

### *WHERE TO FIND AND HOW TO CREATE*

In fact, if you're a minor, you have no choice but to use bladed weapons and bombs. Alternatively, if you have a firearm in a safe at home, congratulations, you're very lucky. Or, if your family has a welding machine, you can easily weld a shotgun.

In some countries, you can commit a car attack from the age of 16, which is a very effective method.

**IMPORTANT: DO NOT BUY COMPONENTS ONLINE OR FROM THE SAME STORE.**

### **Firearms**

The most basic thing you can make is a shotgun from two pipes of different diameters. Take the larger diameter metal pipe and weld a cap onto one end (first, weld a nail or some other sharp protrusion onto the cap itself). Place the end of the cap with the sharp protrusion down on the larger diameter pipe and weld it in place. That's it, your shotgun is ready; insert a shell into the pipe.

You insert the cartridge into the larger diameter tube (the protrusions on the cartridge case should fit securely against the edges of the tube), aim, and sharply squeeze the two tubes together, firing. The protrusion you welded to the cap sharply strikes the cartridge's primer, detonating the powder inside and firing the pellets or other projectiles.

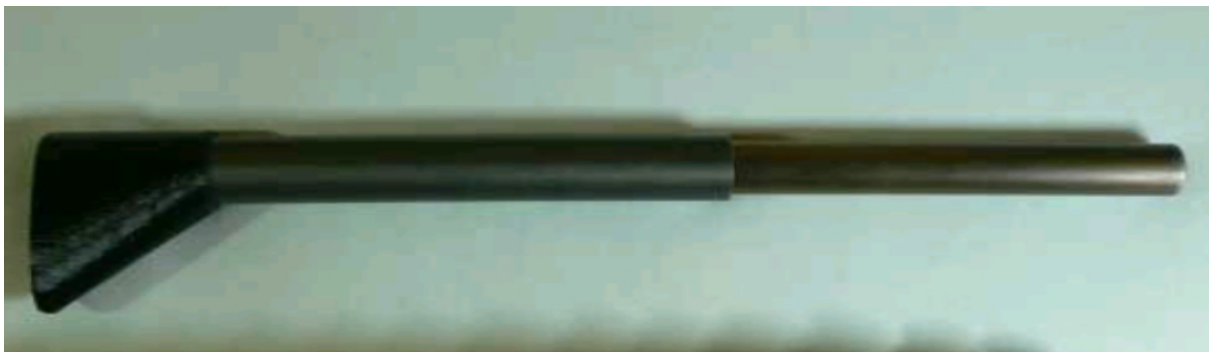

■ Труба большего диаметра

■ Труба меньшего диаметра

■ Патрон

Examples (Stefan Balliet's weapon (Halle attack 2019)):

And as we can see, it worked great.

Other firearms are more difficult to make, but with a welding machine, tools, a steady hand, and YouTube guides from the Indians, everything can be done.

## Ammunition

Making shells is no more difficult than making a shotgun. Depending on the type of shell, you'll need different instructions.

Shotgun shells:

- cartridge case (sold on marketplaces, but be careful not to arouse suspicion);
- capsule (I don't know);
- gunpowder (available at hardware stores if you're considered an adult. It can also be extracted from fireworks or firecrackers)/match sulfur (may not produce as much energy when detonated and won't produce the desired result of high pellet or bullet velocity);
- cardboard/wad/cotton wool (not sure about cotton wool)
- damaging elements (nail heads, nuts, screws, self-tapping screws, metal balls)

### Нормальный патрон

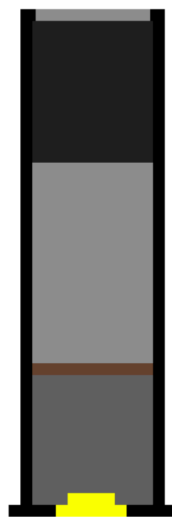

Пространство с поражающими элементами

Пыж

Картон

Порох

Капсюль

### Твой патрон

Пространство с поражающими элементами(к слову, Баллиет использовал в качестве поражающих элементов монеты, поставленные внутри патрона в ряд)

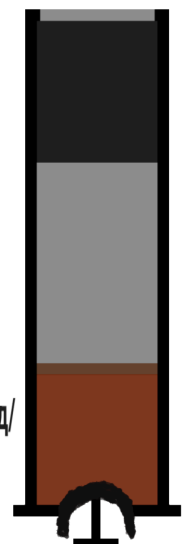

Пыж/вата/картон

Картон

Спичечная сера/спичечная сера смешанная с порошком, соскребанным ножом с чиркаша упаковки спичек(второй вариант менее безопасный, но в теории может дать большую энергию)

порох из петард/фейерверков

Кусок гвоздя с оторванным фрагментом чиркаша(при ударе гвоздь должен резко протолкнуть кусок чиркаша на бумаге в серу, дав искру)

It's the same with bullets, but you need regular cartridge cases, you don't need a wad-shaped adapter, and instead of striking elements, you have a single bullet.

## Bombs

Homemade Grenade No. 1

I learned how to make it from the movie "Zero Day," which shows the process in great detail. I recommend the movie to everyone.

- a metal pipe with threads at the ends (hardware store);
- metal threaded plugs for pipes (hardware store);
- drill (look at home);
- wick (hardware store);
- gunpowder/match sulfur (gunpowder is better, of course) (a hardware store, but they may not sell it)
- damaging elements (nail heads, nuts, screws, self-tapping screws, metal balls)

Screw the first plug onto one end of the pipe. Drill a hole in the second plug to match the diameter of your fuse and screw it in place (or weld it). Fill it with gunpowder and projectiles, then insert the fuse. Done. You can learn more in the video.

Example (Columbine High School shooting 1999)

Homemade Grenade No. 2

Take a powerful firecracker, surround it with shrapnel, and tape it all together. It should work.

Example (attack on a school in Monte Mora, Brazil (February 13, 2023))

Homemade Grenade No. 3

Take a #1 or #2 grenade and attach it point-blank to an air freshener/spray deodorant or anything pressurized. Wrap the canister itself with the projectiles and tape. Done. If your grenade fails to detonate properly, it will likely at least rapidly heat the canister, causing it to explode and projectile whatever you attached to it earlier. Airgun canisters won't work; they have thick walls and aren't very large.

Smoke grenade.

Just take anything that smokes well when smoldering, put it in some kind of casing, set it on fire and throw it away.

Gas grenade.

Simply take everything that can harm the respiratory system even with a normal inhalation, put it in some kind of casing (you can mix it with match sulfur, so that when the fire reaches the inside of the wick, everything will definitely work), light it and throw it away.

By the way, important details for many:

Since they might not sell you a wick, make one from regular thick thread, which you soak in match sulfur, ground into powder and mixed with water.

To increase the risk of explosion, you can insert batteries into your devices, such as the universal lithium battery YX350926 60mAh +3.7V 0.222Wh 230, which I personally removed from semi-wired headphones. Even a weak puncture causes batteries to turn into a flame that is very difficult to extinguish, and they explode when heated.

# End

I'm writing this at 8:18 AM on December 16th. It seems everything is ready...

Finally, I want to say, or rather, not say, but repeat, I am not to blame for what happened. I am forced to spend my life correcting something that should never have happened. The Great Replacement should never have happened. Never.

And since "white men" can't do anything more than peacefully protest, I'm stepping in. You can hate me as much as you want, do whatever you want, I don't care.

I'll hit the most vulnerable bastards, the ones I hate the most. Yes, I hate society and a huge number of white people, but I wouldn't kill Europeans. If there were no Muslims, I would attack blacks; if there were no blacks, I would attack Hispanics; if there were no Hispanics, I would kill Jews. But no matter how much I hate you, you whites, WE, whites, have proven and defended our right to exist, in the Crusades, in numerous wars with occupiers over a thousand years. And we will push them back again. I hate you, but you have done far more good than bad, I have no right to touch my own kind.

It's time for me to go out, for me to act. I did  
this in the name of European freedom. Don't  
fear death, don't be afraid to act.  
See you in Valhalla.
